Economiser Lagging Jacket for Cold Water Tanks

Description:

Excel Industries provides a wide range of Insulation products for hot and cold water cylinders, tanks and pipes. Sufficient insulation is the cheapest, easiest and should be one of the first steps taking when carrying out energy savings measures on heating or cooling applications. Economiser cold water tank jackets are available for both rectangular and circular cold water tanks. They prevent cold water tanks from freezing, prevents the growth of bacteria and keeps dust from entering the tank. It is simple to install and a full set of installation instructions are available with each jacket

Features:

- Prevents Cold Water Tanks from Freezing
- Easy to Apply
- Prevents Growth of Bacteria
- Prevent Dust Entering the Tank
- Made from 50mm Mineral Fibre Wool Insulation
- Meets the requirements of Water By Law 30

Technical Data:

Insulation Material:

50mm Mineral Fibre Wool Insulation

Jacket Material:

Black PVC

Thermal Conductivity:

0°C – 0.044 W/mK

Sizes (H x W x L):

4 Gallon (18L) – 450 x 300 x 300mm

50 Gallon (222L) – 120 x 600 x 600mm

75 Gallon (222L) – 337 x 600 x 600mm

Temperature Range:

-10°C to 50°C

Conformity:

Meets Requirements of Water By Law 30
