

Galvoband

Strength &

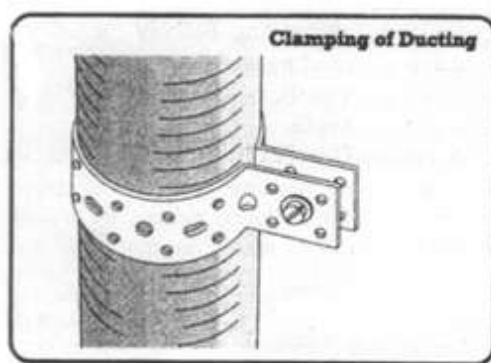

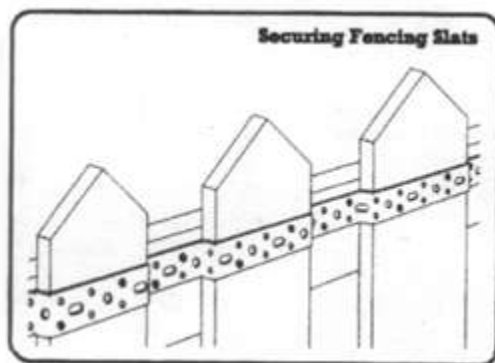

Flexibility

Eurometals' Galvoband provides the ideal answer to the problem of efficient fixing or bracing.

Galvanised to the demanding BS2989:1982,Z2 quality levels, the range is perforated for the options of fix with a whole range of nails, bolts or screws, and conveniently supplied in coils.

All Galvoband is flexible yet strong; the cutting, bending and even twisting is easy. This makes Galvoband ideal for builders, electricians, carpenters and the DIY handyman, with a vast number of applications.

Galvoband is available in 3 sizes: 13mm, 20mm and 25mm; each coil is 10 meters in length.

Product	material	hole size
13mm Galvo-band	12.7x.65mm	large 4mm small 2mm
20mm Galvoband	19.9x.9mm	large 7mm small 3mm
26mm Galvoband	25.4x1mm	large 10mm small 4mm
